Dev Tools:	Visual Studio 2003-12, TFS 2010-12, SQL SMS 2005-12, PLSQL Developer 9, ReSharper, Fiddler, Visio, Adobe CS (Illustrator, Photoshop, Dreamweaver, Flash)
Related Skills:	.NET 3.0-4.5, n-Tier Architecture, KnockoutJS, Autofac, Web Services, Web API, REST Based Services, Atom XML, Google Analytics
Certifications:	A+, Network+, Series 6, Series 63

Experience

Ohio Department of Insurance   **2013 – Present**
Web Solutions Developer | Hire CIO, Inc.

- Maintained existing ODI enterprise applications in an agile project environment utilizing the Scrum methodology carrying out the completion of a number of sprints in the application life cycle of multiple projects using the MVC.NET Development Framework.
- Developed and maintained application code in an n-tier architecture environment employing the use of DI/IoC, SOA, WebAPI, WCF services, Broker Event services, Dynamic Search Terms, Manifest Articles, JSON and other enterprise technologies.
- Conducted UTs, UATs and prepped applications for DRATs.
- Performed application troubleshooting, code corrections and rewrites to conform to changing specifications and package updates.
- Developed scripts for updates, corrections, modifications and troubleshooting database packages and procedures.
- Worked with a team of nine (9) .NET developers and six (6) database developers

Tools Used
HTML, CSS, JavaScript, J-Query, JSON, WebAPI, C#, ASP.NET, MVC.NET, ReSharper, Autofac, KnockoutJS, Fiddler, XML, Oracle 11g, WCF, TFS, AJAX, MSVSS (2012), PL-SQL Developer

Ohio Department of Health   2013 – 2013
Web Solutions Developer/Project Manager | Hire CIO, Inc.

- Architected, designed and developed the "Birth Defect Surveillance System" as an add-on to the existing Ohio Connections for Children with Special Needs (OCCSN) case management system using the .NET Framework written in C#.
- Conducted regular meetings with executive sponsors, stakeholders and existing IT staff to determine system requirements.
- Developed system specifications and documentation containing project scope, problem statement, problem analysis, use-case narratives, entity relationship diagrams, data modeling, process modeling and UI design.
- Developed new database infrastructure, specifications, permissions, procedures, functions and triggers using T-SQL development environment as well as cross database communication between existing databases and information de-duplication for post ETL processes.
- Conducted unit testing of application and oversaw UATs of the role based UI implementation.
- Provided technical expertise and direction to a team of two (2) developers.

Tools Used
HTML, CSS, JavaScript, J-Query, C#, ASP.NET, MSSQL 2012, TFS, ADO.NET, AJAX, Web Services, Adobe CS Suite (Photoshop, Illustrator), MSVSS (2012), MS Office 2010 (Word, Excel, Visio), SQL SMSE 2012

Ohio Department of Commerce   2012 – 2013
Web Solutions Developer/Project Manager | Hire CIO, Inc.

- Architected, designed, developed and rebranded the web presence for the entire Ohio Department of Commerce, its eight (8) divisions and their respective twenty-six (26) subsections.
- Provided technical expertise in UI development for client facing web applications, information delivery methods and efficient trends for end-user information access.
- Developed draft designs, demo sites and led presentations for Commerce Directors, Superintendents and divisional web modernization teams with as many as forty representatives in attendance at a time.
- Designed and developed .Net web services, their specifications and the business tier logic for implementation in the lookup applications created for the Commerce divisions.
- Designed the database infrastructure, specifications and developed the SQL code for the stored procedures to be used for data access by .Net web services.
- Facilitated the systematic collection of relevant content, the parsing of the collected content and the content's conversion into effective use in design comprised of over 3,000 documents, pages and references to external resources.
- Provided technical expertise and direction to a team of three (3) developers.
- Experienced working in cross functional teams using Agile Methodologies.

Tools Used
HTML, CSS, JavaScript, J-Query, C#, VB, VB .NET, ASP.NET, MSSQL 2012, WCF, TFS, ADO.NET, AJAX, Web Services, Adobe CS Suite (Photoshop, Illustrator), MSVSS (2010, 2012), MS Office 2010 (Word, Excel, Visio), SQL SMSE 2008R2 & 2012

Perspective Design Group   **2009 – Present**
Web Architect/Developer
- Design, build, deploy, and maintain applications and web sites. Utilize various languages and tools including .NET 4.0+, JQuery, ASP.NET, C#, ADO.NET, Visual Studio, SQL Server, HTML, XHTML, CSS, Flash, Photoshop, Illustrator, and Dreamweaver.
- Develop complete web applications that can be maintained by the client without any web development knowledge. Apps feature complete management consoles that allow the client to control a variety of features.
- Design and edit web page content, as well as direct others producing content.
- Manage hosting, database implementation, mail server implementation, and security guidelines.

03/2010	Integrity Gymnastics	Graphic Design;
02/2010	Mystical Fragrances	Graphic Design; Web Design/Dev;
02/2010	Equity	Graphic Design;
01/2010	Bartar Consulting Group	Graphic Design; Web Design/Dev;
01/2010	Southwest Surgical Specialists	Graphic Design; Web Design/Dev;
01/2010	Total Services Unlimited	Graphic Design;

Tools Used
HTML, XML, CSS, JavaScript, jQuery, AJAX, C#, VB, ASP.NET, WCF, TFS, MSSQL, MySQL, ADO.NET, Adobe CS Suite (Photoshop, Illustrator, Dreamweaver, Fireworks, In-Design), MS Visual Studio Suite (2002, 2003, 2010, 2012), MS Office 2003-2010 (Word, Excel, Access, Outlook, Visio, Project), SQL Server Management Studio 2005-12

Time Warner Cable   **2007 – 2009**
Regional Tier 3 Support
- Provided high-level technical support to residential and business class customers in twelve states.
- Managed outage reporting, maintenance updates, and system migrations across seven divisions.
- Provided support for seven customer facing projects in addition to core business products and services.

Tier 3 Business Class Support
- Diagnosed and resolved hardware configuration conflicts and other network related problems.
- Performed command line configurations of commercial switches and routers.
- Answered unique User inquiries and performed system configuration changes at the client's request.

Tier 3 Residential Support
- Received inbound calls and provided technical assistance to customers and technicians in the field.
- Remotely accessed end-user networks and PCs to resolve configuration conflicts and system errors.
- Answered unique User inquiries regarding computer software and hardware operation.

Tools Used
Office 2007-2010 (Word, Excel, Outlook), ICOMS, Eventrak, Big Brother, REMEDY, iGlass, IssueTrak, ATG Diagnostics, Avaya, Empower, KRONOS, Unified

PrintPro, Inc.   **2004 – 2006**
Marketing & Design
- Developed, designed and coordinated design of all marketing materials
- Confer with clients to discuss and determine layout design for brochures, mailers, letterhead, envelope, magazines, books, etc.
- Prepare illustrations or rough sketches of material, discussing them with clients and making necessary changes.
- Develop graphics and layouts for product illustrations.
- Designed, built, and deployed web sites. Utilized various languages and tools including ASP, JavaScript, Visual C#, Visual Studio 2002-2003, MySQL, Access, HTML, XHTML, CSS, Flash, Photoshop, Illustrator, and Dreamweaver.

Tools
Quark Express, Corel Suite 10-12(Draw, PhotoPaint, Rave), Adobe Page Maker, Adobe In-Design 1 & 2, Adobe CS Suite 1 & 2 (Photoshop, Illustrator), Acrobat/Acrobat Distiller 4.0-6.0, Fiery Rip, Publisher, Macromedia MX (Flash, Dreamweaver, Fireworks, FreeHand), ASP, HTML, CSS, MySql, C#, JavaScript, XML, MS Office 2003 (Word, Excel, Access, Outlook, Visio);

Citigroup, Inc.   **2001 – 2003**
Financial Advisor
- Sold financial products such as stocks, bonds, mutual funds, annuities, and insurance.
- Built and maintained client bases, kept current client plans up-to-date, and recruited new clients.
- Analyzed clients' financial information and determined strategies for meeting clients' financial objectives.

Tools Used
MS Office 2000 (Word, Excel, Outlook)

Education

Bachelor of Science in Computer Information Systems (Almost complete)
DeVry University
